

SD-S89

45W•85W

FEATURES

Solar Powered Street Light
Integrated Pole and electronic componentry
Intelligent switching system
Micro computer

SOLAR BOARD

Single wafer cell/multi-wafer cell
(50wp-200wp)

STORAGE CELL

Maintenance-free lead free cell
(12v55Ah-200Ah) / Gel cell

CONTROLLER

Intelligent digital controller
(single side / double sides)

MATERIAL

Metal(hot-dip galvanized and electro-
static powder coated)

HEIGHT

5m-12m(or customise at customer's
request)

WORKING TIME

Main power: 6-8hours,
Subsidiary power : whole night
(or customize at customer's request)
Ambient Temperature:-20°C~60°C

SUPPORTED LAMPS

- 12-36 volt
- 45-85 watt round

APPLICATIONS

Street light, courtyards, paths, housing
estates, parks and gardens etc...
